

艺术墙 TEXTURE WALL

# WHY TEXTURE WALL

## AESTHETIC APPEAL.

Texture wall can add depth and interest to an otherwise plain, boring surface. Depending on the texture chosen, it can create a rustic, modern or even industrial look.

# WHY TEXTURE WALL

## HIDING IMPERFECTIONS.

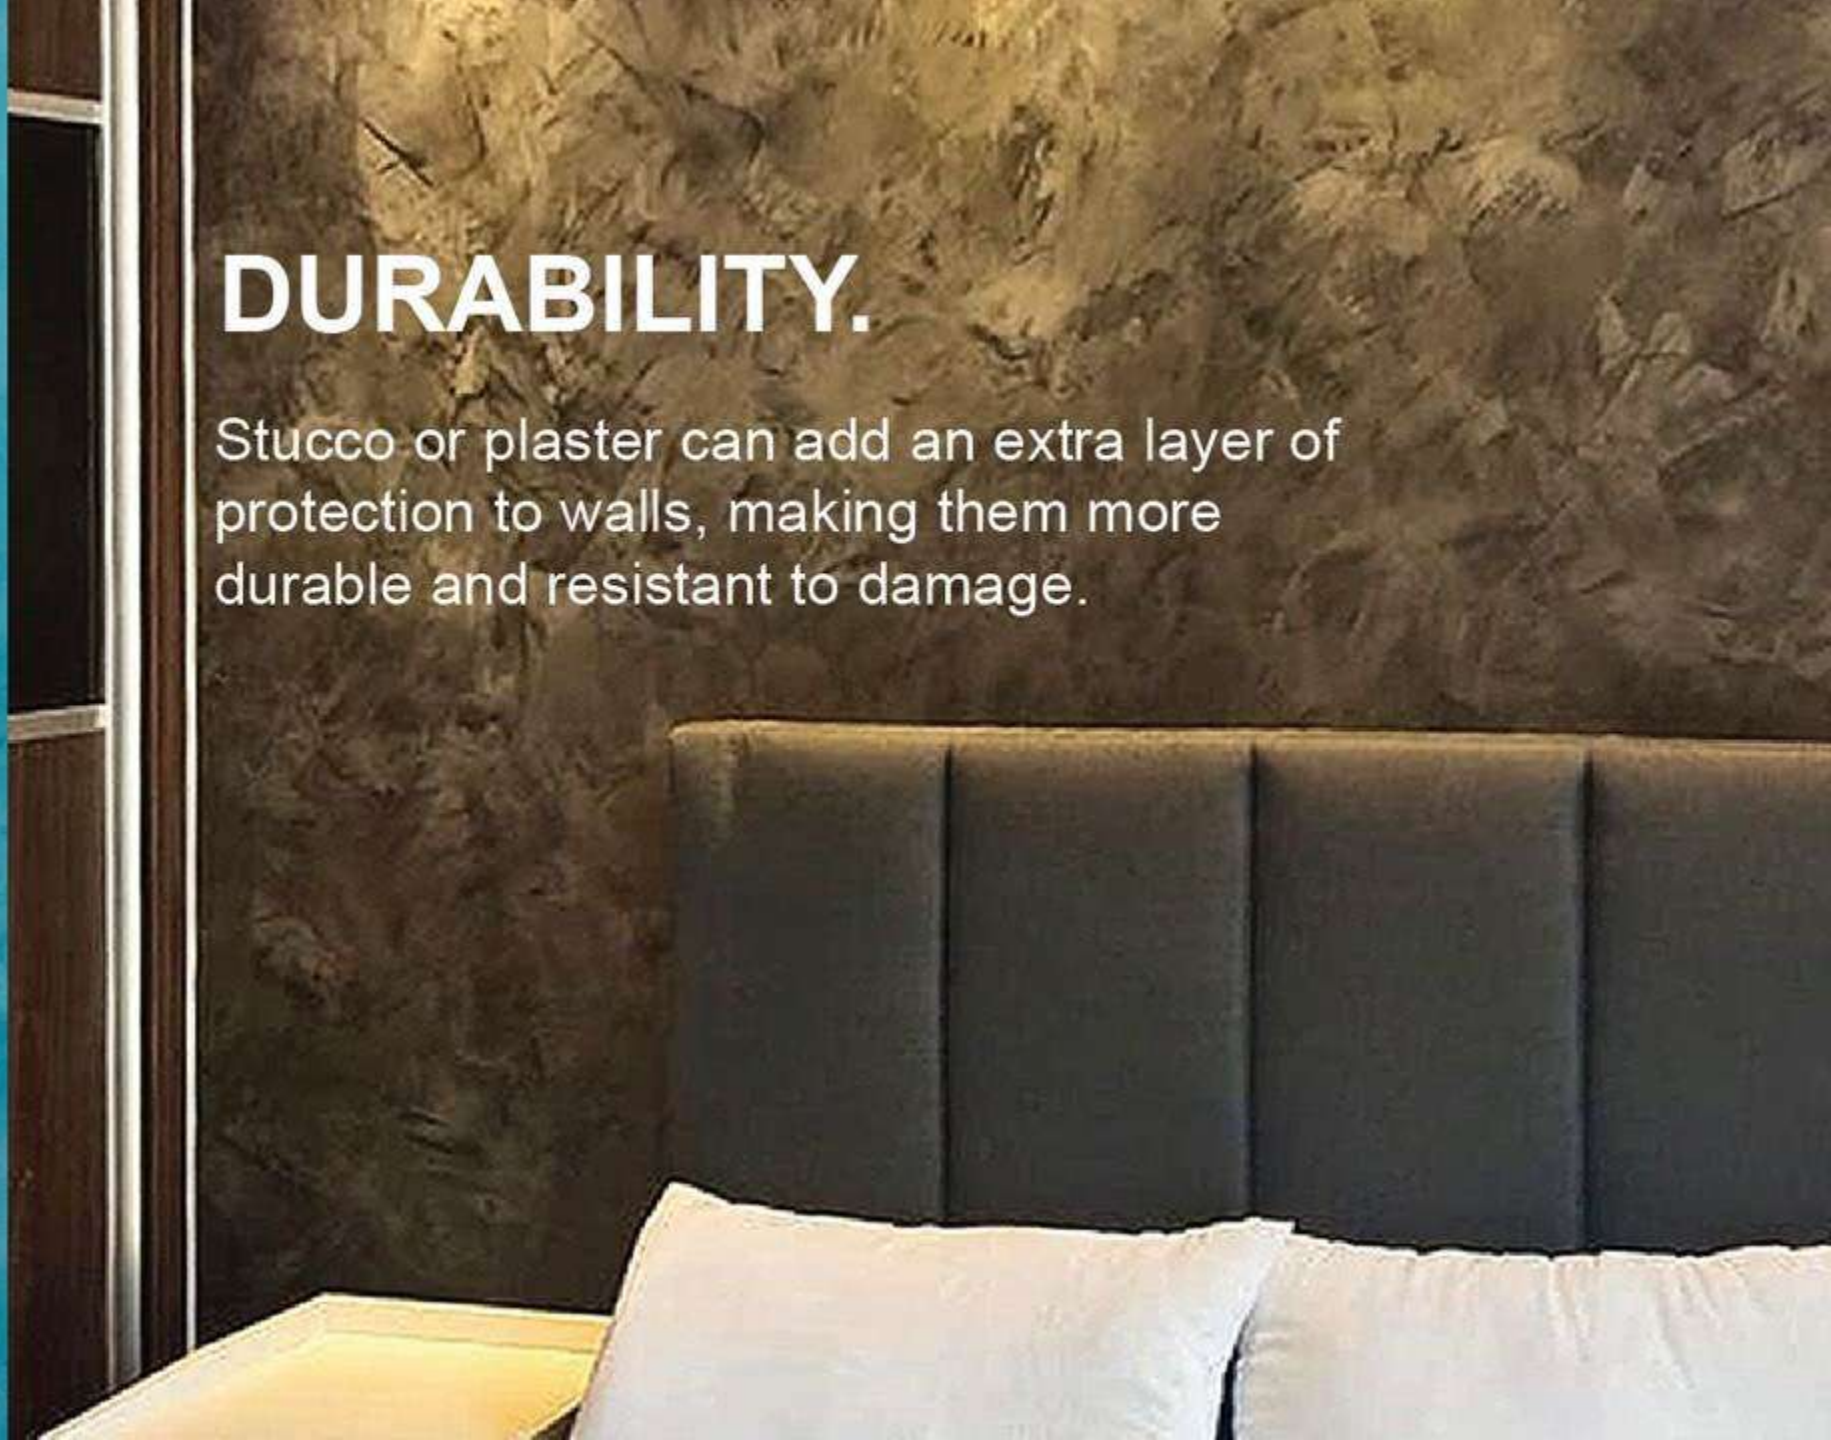

if a wall has minor cracks, dents or other imperfections, texture wall can help hide them.

# WHY TEXTURE WALL

## DURABILITY.

Stucco or plaster can add an extra layer of protection to walls, making them more durable and resistant to damage.

# ADVANTAGES

of Lime Based Plaster

**LOW VOC**

**LONG-LASTING**

**DURABLE**

**ANTI FUNGUS**

**BREATHABLE**

**EASY CLEANING**

DESIGN FOR  
ARCHITECTURAL

**VELLPLAS**  
MATTE FINISH

Providing the simple application of a ready mixed coating with the subtle, luxurious design of a subtly textured matte finish, VELLPLAS Matte Marmorino delivers high-quality, superb design and exceptional value in one.

Available in a range of colours, this easy-to-apply decorative plaster can produce endless shading, texture, and patterning to suit any interior design. During installation, patterns and texture can be introduced, giving a unique look to any interior, with the matte finish giving a subtle and quality finish.

DESIGN FOR  
ARCHITECTURAL

Available in a range of subtle hues that retain that classic feel, it is a timeless finish brought into the 21st century.

Perfect for recreating the historical style of Italian nobles and luxurious living through the ages, Vellcco Stucco is a textured decorative plaster that adds a new dimension to interior style.

DESIGN FOR  
ARCHITECTURAL

**VELLMA**  
POLISHED TEXTURE

MacoAveLL VELLMA Marmorino offers a unique expression of colour, shape and design in any environment.

A decorative plaster that offers a superb finish that looks opulent and beautiful while retaining affordability. Available in a range of colours, this versatile material can create a variety of subtle or impactful effects, while providing a tough, low-maintenance finish for any interior space. The patterning is created using a steel trowel, and it can offer a broad range of looks depending on requirements. From a marble-like look to the subtle bending of shades, including multiple colours if needed, the possibilities are endless.

The ideal protection for plaster and furniture, Vellwax Cera Clear Wax provides a water-resistant layer with one easy application.

Repelling water and protecting against dirt and impurities, the transparent layer seals the surface it is applied to, providing a polished finish for a lustrous look.

Vellwax Metallic protect, seal and polish your plaster surfaces while adding a metallic sheen to the finish.

Our easily applied Vellwax metallic wax is water resistant, forming a protective layer on the surface. Keeping out moisture and other impurities, this wax also contains a faux metallic tint that adds an extra sparkle to the final appearance
